STRATACHEM SPECIALITIES

STRATAFOAM – Serving industries since decades.

STRATACHEM SPECIALITIES PRIVATE LIMITED has been a pioneer in the field of Performance Additives with its **STRATAFOAM** brand of foam control solutions for a wide spectrum of applications such as Agrochemicals, Construction chemicals, Pulp & Paper, Fermentation, Sugar, Lubricants & Metalworking Fluids, Textiles and Waste-water treatment (ETP) to name a few. We endeavor to manufacture and supply the best of quality, being mindful about environment. This has enabled us to offer the most diverse range of APEO-free formulations across all our product categories.

STRATAFOAM was conceptualized as a brand in 2007 by Sandeep Vasa & Parag Jhaveri – names synonymous with Foam Control solutions being made in India but made for the world, enabling industries to reduce their dependency on imports in these changing & challenging times.

STRATASURF, another brand of **STRATACHEM SPECIALITIES PRIVATE LIMITED**, is our brand of Gemini surfactants, based on the novel Acetylenic Diol chemistry. This chemistry is a significant step up for coatings, lubricants & metalworking fluids sector to manufacture products that are at par with the global standards. The key to the success of this chemistry is its ability to significantly reduce the surface tension of the coating media that translates to supremely uniform and smooth surface of the targeted substrate.

AGRO CHEMICALS

DEFOAMERS

STRATAFOAM GS 300	Silicone antifoam emulsion	For EW formulations
STRATAFOAM GS 15P	Silicone defoamer (Powder)	For Wettable Powders
STRATAWETT AGS 348	Silicone super spreader	Used as adjuvant

FERMENTATION & BIOTECHNOLOGY

DEFOAMERS

- *Silicone-free*
- *APEO-free*

STRATAFOAM FN 2121	EO-PO Block Copolymer	For enzymes
STRATAFOAM FN 673	Blend of Alkoxylates + esters	For enzymes and yeast
STRATAFOAM FN 9D	Tri-hydroxy compound	For distilleries
STRATAFOAM FN 020	Polyglycol	For statins
STRATAFOAM FN SP	Fatty alcohol alkoxyate	For vitamins

LUBRICANTS & METAL WORKING FLUIDS

DEFOAMERS

- *Silicone based*
- *APEO-free*

STRATAFOAM LS 75	Silicone emulsion	For metal working fluids
STRATAFOAM LS 85	Silicone concentrate	For metal working fluids
STRATAFOAM LS 90	Silicone concentrate	For metal working fluids
STRATAFOAM LS 678	Silicone emulsion	For metal working fluids
STRATAFOAM LS 149	Silicone emulsion	For Hydraulic & Gear Oil

PULP & PAPER

DEFOAMERS

- *APEO-free*

STRATAFOAM PSP 1930	Silicone antifoam emulsion	For pulp washing
STRATAFOAM PSP 1530	Silicone antifoam emulsion	For pulp washing
STRATAFOAM PN 9730	Silicone-free antifoam emulsion	For paper making / Wet-end
STRATAFOAM PN 2530	Silicone-free antifoam emulsion	For paper making / Wet-end
STRATAFOAM PN 6600	Silicone-free antifoam concentrate	For paper making / Wet-end
STRATAFOAM CN 7010 SFE	Mineral oil based antifoam	For paper coating
STRATAFOAM GS 300	Silicone antifoam emulsion	For Waste water treatment
STRATAFOAM EN ARC	Environment friendly antifoam	For Waste water treatment

CEMENT ROOFINGS & BOARDS

DEFOAMERS & RELEASE ADDITIVE

• APEO-free

STRATAFOAM RN 21	Fatty alcohol alkoxylate	For asbestos cement sheets
STRATAFOAM RN 23	Fatty alcohol alkoxylate	For fiber cement boards
STRATAFOAM RN 219	Fatty alcohol alkoxylate (<i>high pH</i>)	For fiber cement boards
STRATAFOAM RN AD	Bonding additive	For bonding with fibers
STRATAFOAM SEM40	Silicone release agent	For mould release

SUGAR

DEFOAMER & VISCOSITY REDUCERS

• APEO-free

STRATAFOAM FZN 500	Anionic viscosity reducer	For Sugar process
STRATAFOAM FZN 700	Anionic viscosity reducer	For Sugar process
STRATAFOAM GS 300	Silicone antifoam emulsion	For Sugar juice clarification

TEXTILES

DEFOAMERS

• APEO-free

STRATAFOAM TN 100	Silicone-free antifoam	For jet dyeing
STRATAFOAM CS 500	Silicone antifoam emulsion	For jet dyeing
STRATAFOAM GS 300	Silicone antifoam emulsion	For jet dyeing & waste water treatment

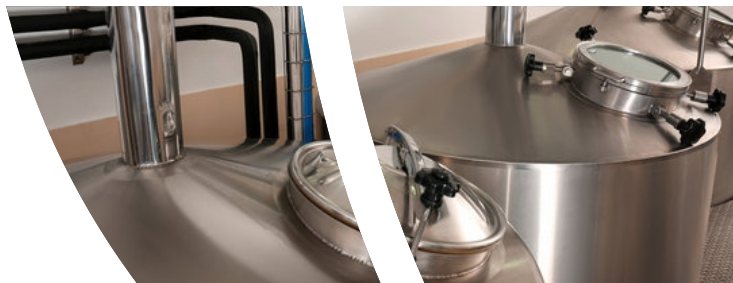

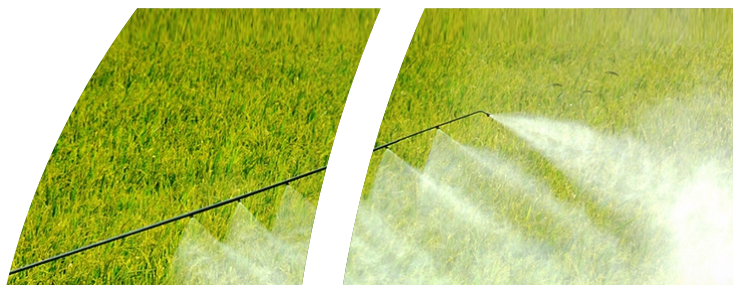

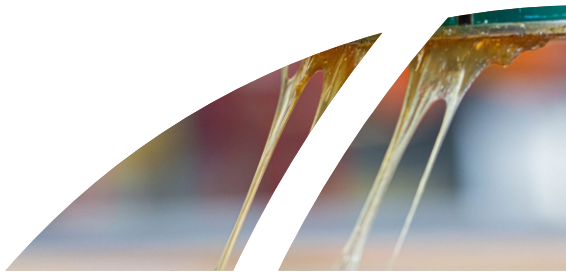

WASTE WATER TREATMENT (ETP)

DEFOAMERS

• APEO-free

STRATAFOAM GS 300	Silicone antifoam emulsion	For ETP
STRATAFOAM EN ARC	Silicone-free biodegradable antifoam	For BOD/COD sensitive ETP

We bring to you one of
the most effective
silicone-free chemistries
known to the world.

STRATASURF

range of Gemini
Surfactants comprises
multi-functional
surfactants that impart
dynamic wetting and
molecular defoaming in
waterborne paints, inks &
adhesives.

The key benefits and advantages of use of **STRATASURF** series are:

- Quick defoaming & dynamic wetting for premium coatings, inks & adhesives
- Novel combination of low-foam and dynamic wetting
- Molecular defoaming by reduction in surface tension of the substrate
- Dynamic wetting feature enables high speed application of adhesives on films & tapes
- Supports high speed digital printing on textiles
- Dynamic wetting of silicone-free adjuvants for pesticides & insecticides
- High cloud point combined with low surface tension helps Latex gloves manufacturing
- High temperature resistance comes to use in Forgings & Refractories
- Low foam wetting in synthetic & semi-synthetic Metalworking fluids

Registered Office

STRATACHEM SPECIALITIES PVT. LTD.
#512-515 Serene Centrum, Gotri Road,
Laxmipura (New Alkapuri), Vadodara 390021, INDIA

Factory

SURVEY# 633/B, PLOT # 21/A, LAMDAPURA ROAD,
MANJUSAR, TAL: SAVLI,
DIST. VADODARA 391775, GUJARAT. INDIA
